## EUROPEAN CENTRE FOR HEALTH RESEARCH & DEVELOPMENT

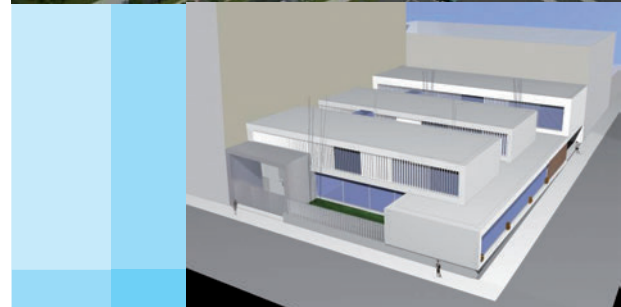

# CEDIS

PROJECT PROMOTER: GRUPOINEX INVERSIONES, S.A.

The scope of development of solutions to chronic diseases are rare and include regenerative therapy. The residential Care Center is a care and treatment center for patients; the center therefore, aims at improving peoples' well being as well as the quality of life. The center will be built in over 3 million square meters in an area that is yet to be defined near the international airport of Alicante.

### *The Centre will be composed of:*

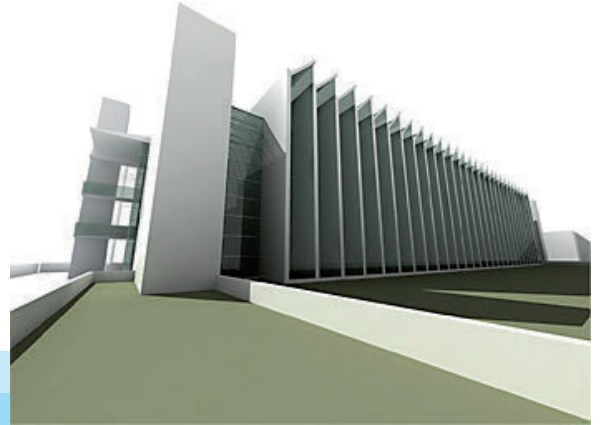

- The University Hospital
- Centre for Daytime Care
- First Aid - Emergency
- Interventions
- Shock Therapy

- Care
- General Therapy
- Interventions
- Rehabilitation
- Medical Exams

## Research Centre

- Chronic diseases
- Patients will be enrolled in the care and assistance programs; the relatives of the patients can stay with them in the facility while they are undergoing treatment.
- Rare diseases  
Lines of research on rare diseases are developed to come up with the best solution to improve the quality of life; this is coupled with assistance programs and specific therapies.
- Treatment for wounds, animals, plants, viruses and epidemics

Research Centre
